

## Storm Clouds Over Mountain View Middle School

Robert, what will you bring and give to others in this school? When the principal of his new school asks him this question on his first day, Robert isn't sure how to answer. School has always meant bad grades and getting picked on for Robert. But maybe it will be different this time. Maybe he can bring something to this school that will make it better for everyone.

For a while it seems like it really might happen. Robert makes a good friend, starts earning better grades and discovers something special that he can do really well. And then the school's worst bully makes Robert his prime target and things start to get bad. When tragedy strikes and the bullying spreads throughout the school, it will be up to Robert to take action. Will he be able to live up to the promise he made on his first day?
