

21st Century - Art In The First Decade

This publication depicts as well a history of photography. An exceptional field of convergence is opened in the encounter between dance, movement, body language and photography. Genuine artistic strategies remain behind technical processes and their specific pictorial qualities. The photographic pieces of Feminine Futures are also witnesses of the history of photography. Half a century of imaginative mutation between the years 1890 and 1940... From albumen paper, silver or radium bromides to silver prints, a large chromatic spectrum of chemical experiments are gathered, between stability and self-destruction of the visible matter.
