

# Quantitative Approaches in Logistics and Supply Chain Management: Proceedings of the 8th Workshop on Logistics and Supply Chain Management, Berkeley, California, ... and 4th, 2013 (Lecture Notes in Logistics)

This contributed volume presents selected research papers from the 8th workshop on Logistics and Supply Chain Management, which was held in October 2013 in Berkeley, California. It focuses on the topical issue of quantitative approaches in logistics and supply chain management, mainly covering facility location and location routing; vehicle routing and scheduling; courier, express and parcel service network design; healthcare logistics as well as logistics risk management. The target audience primarily comprises research experts and practitioners in the field, but the book will also be beneficial to graduate students.
