

# Historical Dictionary of Renaissance Art (Historical Dictionaries of Literature and the Arts)

The art of the Renaissance is usually the most familiar to non-specialists, and for good reason. This was the era that produced some of the icons of civilization, including Leonardo da Vinci's Mona Lisa and Last Supper and Michelangelo's Sistine Ceiling, Pieta, and David. Marked as one of the greatest moments in history, the outburst of creativity of the era resulted in the most influential artistic revolution ever to have taken place. The period produced a substantial number of notable masters, among them Donatello, Filippo Brunelleschi, Masaccio, Sandro Botticelli, Raphael, Titian, and Tintoretto. This second edition of Historical Dictionary of Renaissance Art contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on artists from Italy, Flanders, the Netherlands, Germany, Spain, and Portugal, historical figures and events that impacted the production of Renaissance art. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Renaissance art.
