Dwelling in the highland areas of Northeast India, Bangladesh, Southwest China, Taiwan, Burma (Myanmar), Thailand, Cambodia, Vietnam, Laos, and Peninsular Malaysia are hundreds of peoples. Together their population adds up to 100 million, more than most of the countries they live in. Yet in each of these countries, they are regarded as minorities. This second edition of Historical Dictionary of the Peoples of the Southeast Asian Massif contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on about 300 groups, the ten countries they live in, their historical figures, and their salient political, economic, social, cultural and religious aspects. This book is an excellent access point for students, researchers, and anyone wanting to know more.
