

Inlet ChartBook: Floridas East Coast

Provides charts and color aerial photographs of all ocean inlets on the east coast of Florida from the St. Johns River / Jacksonville to Government Cut / Miami. Designed to be used as a complement to other guides and charts, it provides detailed up-to-date information regarding the inlets many of which are greyed out on NOAA charts and ignored in most cruising guides. Hydrographic research done in 1997 and 1998; aerial photos in March 1998. Will be updated periodically; first in a series.
