

When you know that you know that you know! Or The redemption of Benjamin Ashton (Dromedaris Stories from South Africa)

Marie Warder delivers an amazing book!

From Marie Warder, writer of such bestsellers as *Storm Water* and *With no Remorse* one can always expect the extraordinary. In this regard, *When you know that you know that you know!* an enthralling and very different romance, (if it can so be described) is no exception. Set amid orange groves in the lovely town of Nelspruit, South Africa among Bougainvilleas, Flame trees, Jacarandas and Poinsettias; Scarlet Flamboyant and Bottle Brush, yellow Bird of Paradise, crimson Erythrina, salmon, rose pink and white Oleander, interspersed by a riot of the sky blue, Duranta the air is heavy with the perfume of orange blossom in this well-written novel with an unusual plot, unusual complications and an unusual conclusion. It is the story of a successful young American, one of the wealthiest men in the world, who travels to South Africa where, going in search of his brother, he finds Godand, so doing, finds himself! To say more would be to spoil for our readers what should prove to be a captivating read which will hold their attention from start to finish. Every chapter ends with a cliffhanger!

Publishers Review You have never read a book quite like this! It packs such a punch that at times it will leave you breathless!
