

PLOD THE BEDTIME DINOSAUR: PLOD AND THE SNOWY DAY (PLOD THE BEDTIME DINOSAURS ADVENTURES Book 1)

This is the first in the Plod the Bedtime Dinosaur Series where we meet Plod and his best friend William. Will is a man, he is Lucys Daddy but once upon a time he was a five year old boy William. William was sometimes naughty, sometimes nice, with a loving nature and a BIG imagination. So when William began talking about his pet Dinosaur his Mum, Dad and two brothers took no notice. Maybe they should have listened to him because William had a very special friend PLOD! The target audience is the 4-8 year old age group. Each story takes approximately 10-15 minutes to read aloud and they are therefore ideal for parents and children to share at bedtime. Each adventure is a story Will tells his daughter, Lucy, at bedtime. Although the stories are imaginary in nature they reflect the life experiences and relationships relevant to the target age group. The stories could be read just for fun or, as with a new baby or going to school, a starting point for discussion with a child. These are some of the comments I have received from those who have read/listened to these stories: A fine, inventive and exciting story. A lead character full of charm and warmth. These attractive stories will help to bring on young readers. Worked like a charm as a bedtime story. The language is not dumbed down for the children. I wish I had a pet Dinosaur!
