

# Betty the Polar Bear

After the long, hot summer, Betty is bursting with excitement to be reunited with her classmates at Green Leaf Public School-up until the first day of class. Having always been the popular student, Bettys nose gets out of joint when a new student named Zena arrives. Feel and experience Bettys emotions as you dive into this real-life scenario and help Betty discover that God created her for a special reason. About the Author: As a child, Hannah loved being read to, but was not a fan of reading on her own. One day, Hannahs father read her a story about a little polar bear which sparked her love for them. Fast forward to 15 years later and Betty the Polar Bear was born. Hannah is delighted to share this unique series with you that addresses real-life situations that children go through. She guarantees you will fall in love with each of the characters and will want to read these stories over and over again.
