

# Long-term Care State Operations Manual

The Long-Term Care State Operations Manual features all the critical information you need to know to stay compliant with CMS survey regulations. It now includes revisions to the August draft of the unnecessary drugs and pharmacy services f-tags. This manual and accompanying CD-ROM provides word-for-word CMS regulatory guidance and forms on virtually every aspect of a nursing home's annual state survey. In addition to using it for survey preparation, you'll turn to The Long-Term Care State Operations Manual for staff training, policy making, risk management, and MDS reimbursement guidance. Save yourself time and hassle with this cost-effective alternative to printing out this nearly 700-page document from the Internet.
