

Stranded: Book One: The Dragon Ship Series

That night was another restless one. Actually, it was the worst one of my life to that point. I knew I had better get some rest if I was to have any hope of managing the day that was coming for me the following morning. What kind of day you ask? Lets review. Tomorrow I would need to secretly explore the Blue Goose site gathering intelligence information, lead my brother and sister and four other children in play, and rescue my dog Snowball--a pretty tall order for a twelve year old; I think anyone would have to agree! In Stranded, the first book in the all new series The Dragon Ship Series, written by Shawn Sheldon, follow a boy and his brother and sister on their unusual Christmas vacation. Their backyard adventure leads to both frightening and exciting encounters with intelligent dragons, Bigfoot, and pet robots. A mystery begins to unravel as they discover that the common link involves an amazing space ship, hazardous waste, and even their own family history. Will they be smart enough and brave enough to meet the challenges they discover?
