

The Textbook of Pharmaceutical Medicine

The Textbook of Pharmaceutical Medicine is the standard reference for everyone working and learning in pharmaceutical medicine. It is a comprehensive resource covering the processes and practices by which medicines are developed, tested and approved, and the recognised text for the Diploma in Pharmaceutical Medicine from the Faculty of Pharmaceutical Medicine. This fully revised Seventh Edition, which includes two new Editors, encompasses current developments within pharmaceutical medicine with new chapters on biological therapeutics, pharmacovigilance, vaccines, drugs for cancer, drug development in paediatrics and neonatology, the clinical trials directive, life cycle management of medicines, counterfeit medicines and medical marketing. Also included for easy reference, and referred to throughout the text, are the Declaration of Helsinki, Guidelines and Documentation for Implementation of Clinical Trials, relevant European Directives and the Syllabus for Pharmaceutical Medicine. Written by an international team of leading academics, medical directors and lawyers, The Textbook of Pharmaceutical Medicine, Seventh Edition meets the needs of both those working in pharmaceutical medicine and preparing for the Diploma in Pharmaceutical Medicine. The text breaks down into three core sections: Part I: Research and Development Part II: Regulation Part III: Healthcare marketplace View Table of Contents in detail
